The schematic diagram illustrates the power supply and control system for the HP DesignJet Z6800 printer. It includes an AC input section with a switch (SW1) and fuses (F1, F2), a transformer (TNR1) with primary and secondary windings, and a full-bridge rectifier (BD1) with filter capacitors (C1, C2, C3). The power is then regulated by a 79L05 voltage regulator (U105) to provide a +5V output. The control section features a microcontroller (U2, STR-G6353) with various pins connected to sensors (OP104, OP103, OP102, OP101) and actuators (Q102, Q101). The schematic also shows a fan control circuit (FAN, Q101) and a power-on reset circuit (Q102, C1008-Y). A detailed pinout table for the connectors is provided on the right side of the diagram.

Connector	Signal
CON2-1	FEED-SEN
CON2-2	PAPER-EMPTY
CON2-15	THV-PWM
CON2-16	MANUAL
CON2-17	THV-READ
CON2-18	THV-EA
CON2-19	BIAS-PWM
CON2-20	MHV-PWM
CON2-21	LED TONER SAVE
CON2-22	LED-ERROR
CON2-23	FAN
CON2-24	KEY-DEMO
CON2-25	EXIT
CON2-26	FUESR-ON
