

## Tray 3 – Paper Handling Module

---

### Tray 3 Motors

**Tray 3 Nip Release Motor** lifts the Take Away Idler Roll to release the paper as it leaves the Feeder Assembly

**Tray 3 Takeaway Roll Motor** drives the Takeaway Roll

**Tray 3 Feed Motor** provides drive to the Feed Rolls and Retard Rolls

**Tray 3 Lift Motor** provides drive to the Tray 3 Paper Plate cable in order to lift and lower the paper plate.

Tray 3 Motors

## Tray 3 – Paper Handling Module

---

### Tray 3 Motors (continued)

When Tray 3 is pulled out of the machine, mechanical drives from the motors to the tray are disconnected. When the tray is pushed back into the machine the mechanical drives are reconnected.
