

PRINCIPLES OF OPERATION - TABLE OF CONTENTS

Stacker overview	7	The Stacking Height Sensor (B62)	13
Functions of the stacker	9	Stacking High Safety	13
Purge Tray Operation	9	The nearly full sensor (S64)	13
Stacking Operation	9	The full sensor (S65)	13
Sensors	10	Stacking Table Present Sensor (S69)	13
Jam detection	10	The Front Door	13
Stacker components	10	The Front Door Safety Switch (S01)	13
The Main Motor (M91)	10	The Front Door Reporting Switch (S02)	14
The Input Module	10	The Front Door Solenoid (Y03)	14
The Input Sensor (B12)	10	The Top Cover	14
The Input Diverter Solenoid (Y11)	10	The Top Cover Safety Switch (S04)	14
The Purge Tray	11	The Top Cover Reporting Switch (S05)	14
The Purge Clutch (Y21)	11	The tacho wheel (B06)	14
The Paper Present Sensor (B27)	11	The over-current monitor (S07)	14
The Registration/Offset Generation Module	11	Keyboard	14
The Registration Clutch (Y92)	11	The Table Down Switch (S70)	14
The Table Movement Motor (M32)	11	The Maintenance Switches (S80 to S91)	14
The Table Movement Home Sensor (B35)	11	The Jam Position LEDs (H70 to H74)	14
The Table Exit Sensor (B36)	11	The Hex-Digit Display (H80 to H87)	14
The Output Diverter and Bypass Exit	11		
The Output Diverter Solenoid (Y37)	11		
The Bypass Exit Sensor (B42)	12		
The Sheet Flipper Mechanism	12		
The Motorisation Clutch Solenoid (Y51)	12		
The Sheet Flipper Path Sensor (B53)	12		
The Sheet Flipper Motor (M52)	12		
The Sheet Flipper Home Sensor (B54)	12		
The Flipper Safety Sensor (S55)	12		
The Sheet Flipper Baffle Sensor (B57)	12		
The Stacking Table	13		
The Lift Motor (M61)	13
