Tray 3 – Paper Handling Module

Tray 3 Paper Size Settings

In addition to the 8 preset Paper Selection Buttons on the top of tray three (see Tray 3 Operator Selection Buttons), additional paper sizes can be programmed using the Tools Mode from the User Interface Screen.

The additional paper sizes range as follows:
- Width: from 182 - 320mm
- In the feeding direction: 182 - 488mm

NOTE: 80g/m^2 paper or lighter paper requires 210mm minimum in the feeding direction.)

The table below lists usable feed directions.

Paper Size	LEF	SEF
