Service Manual

**Subject:**

Service Manual added Service Mode POST-DWN

**Reason:**

A new setting item, POST-DWN, is added to level 2 COPIER>OPTION>BODY in the Service Mode. The addition is described below.

T-1

COPIER > OPTION > BODY		
Sub-item	Description	Level
POST-DWN	<p>A countermeasure mode to prevent smudges from appearing on the lead edge of an image (caused by pre-transfer upper guide) in the HH environment.</p> <p>Decrease the post high pressure output value from 280uA to 70uA only in the HH environment, as an individual countermeasure, in order to prevent smudges from appearing on the lead edge of an image caused by the pre-transfer upper guide.</p> <p>0: Normal (default)</p> <p>1: Countermeasure mode (A post high pressure value is automatically changed when an HH environment is detected by the environment sensor).</p>	2
