

# Service Bulletin

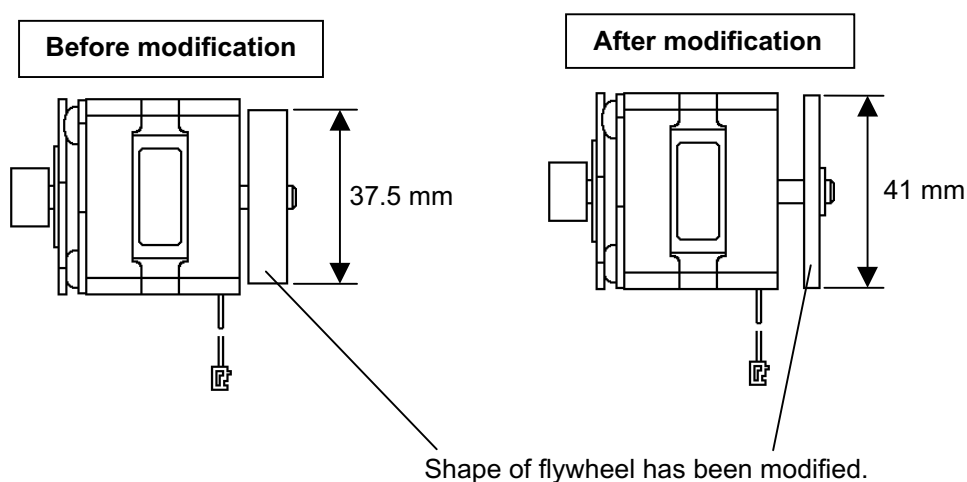

SB Number:	SB 2AV-027	Issue Date: 15/02/2002
Subject:	Improvement of image quality at 200% magnification copy	
Model:	KM-1530 / 2030	

## Phenomenon & Cause

At 200% magnification a blurred image may occur due to the resonance of the flywheel of the 'MOTOR SCANNER'.

## Factory Measure

By modifying the diameter and the thickness of the flywheel, the frequency of the flywheel resonance has been changed to prevent the phenomenon.
