

SB Number:	SB 2DA-006	Creation Date: 20/04/2005
Subject:	Reinforcing fixation of fulcrum pin for strap left cover	
Model:	KM-1650 / 2050 /2550	

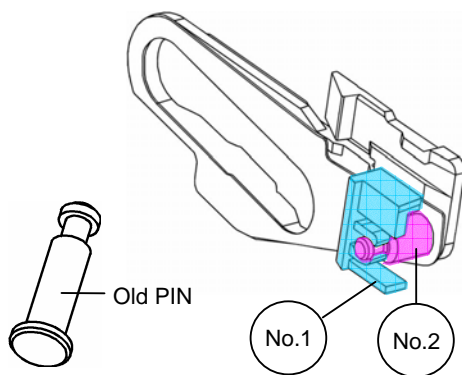

To reinforce the fixation of the '**FULCRUM PIN**' (No.2) for the strap of the left cover, the following change has been made.

Contents of changes

Presently the fulcrum pin (No.2) is fitted into the 'PLATE FRONT STRAP' (No.1 old parts) which is made of resin. To reinforce the fixation of the fulcrum pin, the fulcrum pin (No.2) is changed to screw type. By changing the type of fulcrum pin, the screw type of new fulcrum pin (No.2) is secured on the 'PLATE FRONT STRAP B' (No.1 new parts) which is made of metal.

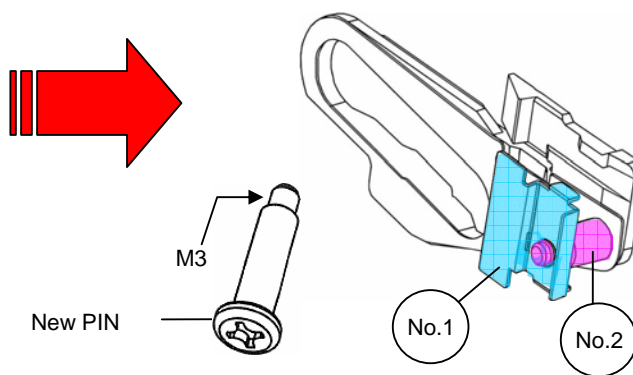

Old way of fixation

Fulcrum pin (No.2) is fitted into 'PLATE FRONT STRAP' (No.1 old parts).

New way of fixation

The screw type of the new fulcrum pin (No.2) is secured on 'PLATE FRONT STRAP B' (No.1 new parts).

No.	Old Parts No.	New Parts No.	Description	Q'ty		Interchangeability		SP	Remarks
				Old	New				
1	2C904460	2C904520	PLATE FRONT STRAP B	1	1	X	X	O	
2	2C904500	2C904530	PIN FRONT STRAP B	1	1	X	X	O	

When replacing old with new parts, please replace No. 1 through 2 at the same time
