**Subject:**

Measure for image failure under strong light intensity

**Detail:**

There are cases where image failure (fogging) might occur when using this product under strong light intensity (e.g., when exposing it to direct sunshine).

As a preventive measure, a new SHIELD SHEET UNIT has been developed.

The SHIELD SHEET UNIT should be mounted on the top cover as described below.

RL1-1576-000

**Service Part:**

Part number: RL1-1576-000 SHIELD SHEET UNIT
