P-2 Contact spring unit

[1] Old type

[2] New type

Points to note about service work:

When replacing the contact spring unit of a machine having a serial number earlier than the ones listed in the “Affected machines” section below, use the old type contact spring unit [1], or perform the replacement with the cartridge guide assembly (FM3-2400).

For a machine having one of the serial numbers listed in the “Affected machines” sections below, use the new type of contact spring unit [2], or perform the replacement with the cartridge guide assembly (FM3-2400).
