

**Model:**

LaserBase MF6530  
LaserBase MF6540PL  
LaserBase MF6550  
LaserBase MF6560PL  
LaserBase MF6580PL

**Ref No.:**

MF6500-018  
(F9-T01-M00-10037-01)

**Date:**

August 2007

**Location:**

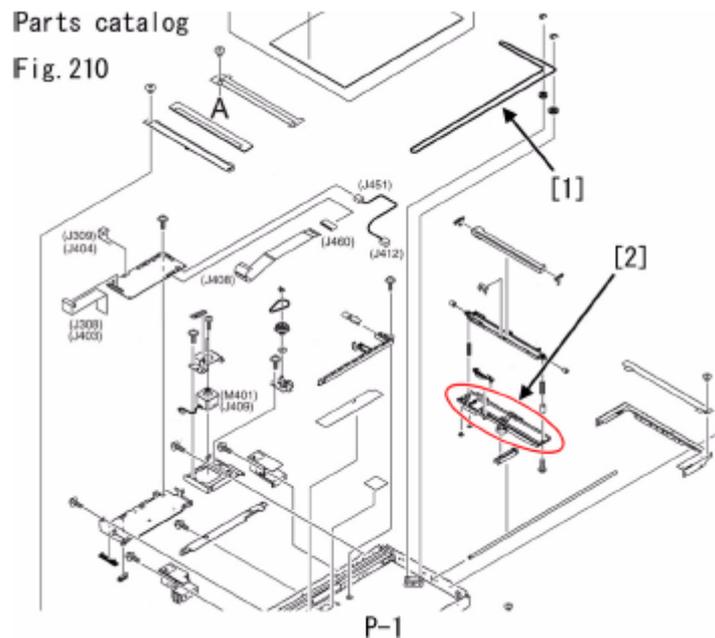

Reader Assembly

**Subject:**

Points to note when replacing the timing belt found in the reader assembly

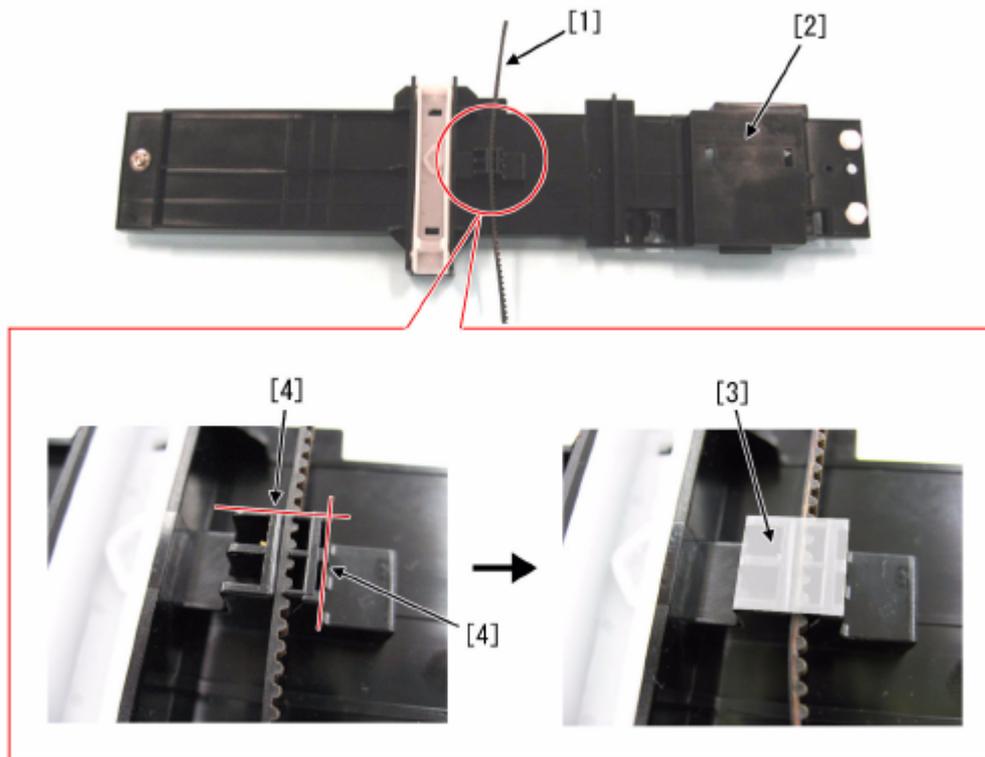

**Detail:**

The timing belt [1] found in the reader assembly has been bonded to the CIS support [2] to prevent it from being detached due to vibrations during transportation. However, this method of fixation is discontinued, instead, the retaining sheet [3] is newly adopted to improve workability in replacing the belt.

P-1 READER ASSEMBLY

- [1] Timing belt
- [2] CIS support

P-2 Retaining sheet attachment position

- [1] Timing belt (XF2-4665-530)
- [2] CIS support (back side)
- [3] Retaining sheet
- [4] Reference lines for attaching the retaining sheet (edges of the rib)

**Points to note about service work**

When replacing the timing belt of a machine having a serial number earlier than the ones listed in “Affected Machines” below, attach the retaining sheet to the CIS support after replacement work (P-2).

When replacing the timing belt of a machine having one of the serial numbers listed in “Affected Machines” below, replace the retaining sheet by a new one at the same time. Be sure not to reuse the old retaining sheet because the adhesion of the two-sided tape is decreased once it is removed.

**Service parts**

No.	Part number	Part name	Q'ty	Stock	Compati- bility	Available from	Fig. No.
1	Old					Mid of July	210
	New	FC7-7632-000	SHEET, RETAINING	0 > 1
