

**Model:**

LaserBase MF6530  
 LaserBase MF6540PL  
 LaserBase MF6550  
 LaserBase MF6560PL  
 LaserBase MF6580PL

**Ref No.:**

MF6500-003 Rev. 1  
 (F9-T01-M00-10005-02)

**Date:**

February 2007

**Location:**

Cassette

**Subject:**

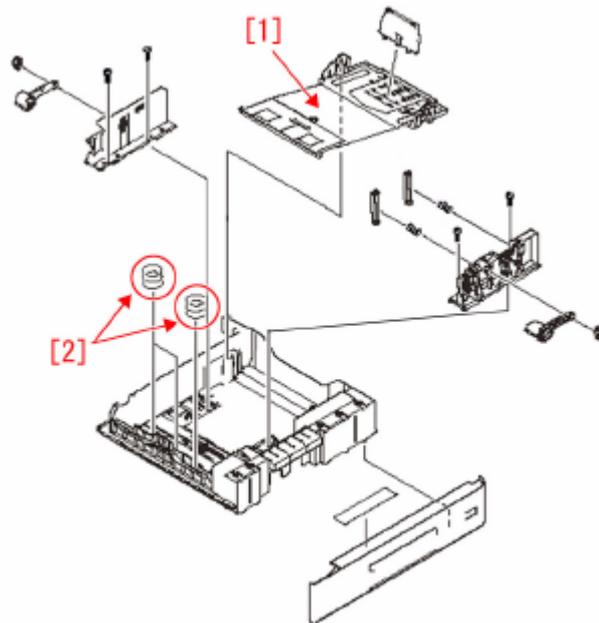

Preventing multiple sheets of paper from being fed simultaneously from cassette

**Detail:**

At the time of cassette pick-up, multiple sheets of paper may be fed at the same time because of too high contact pressure between paper and the pick-up roller. To prevent this, the pressure of the 3 springs [2] that retain the cassette lifter plate [1] is decreased.

The new type spring comes in two types: a blue one and a silver one (See the table below).

Lot number of cassette	Spring color	Part number of spring	Serial number of printer
60707403 and earlier	Silver	FU6-2408-000	Machines with a serial number earlier than the ones listed in "Affected Machines".
60707404 to 61125504	Blue	FU6-2408-020	Machines listed in "Affected Machines"
61125505 and later	Silver		

P-1

- P-1 Cassette
- [1] Cassette lifter plate
- [2] Spring

<Factory measure>

All the 3 springs that retain the cassette lifter plate are changed to the new type.

### Service Work

When the foregoing symptom occurs, replace the 3 springs by the new type simultaneously.

### Service Parts

No.	Part number	Part name	Q'ty	Stock	Compati- bility	Available from	Fig. No.
1	O	FU6-2408-000	SPRING	3 > 0	C	N	300
	N	FU6-2408-020	SPRING	0 > 3	D	Y
