This diagram is an exploded view of a mechanical assembly, likely a motor or actuator. It shows the relationship between various components, which are identified by blue numerical labels. The parts are organized into several sub-assemblies, some of which are enclosed in dashed-line boxes. Key components include:

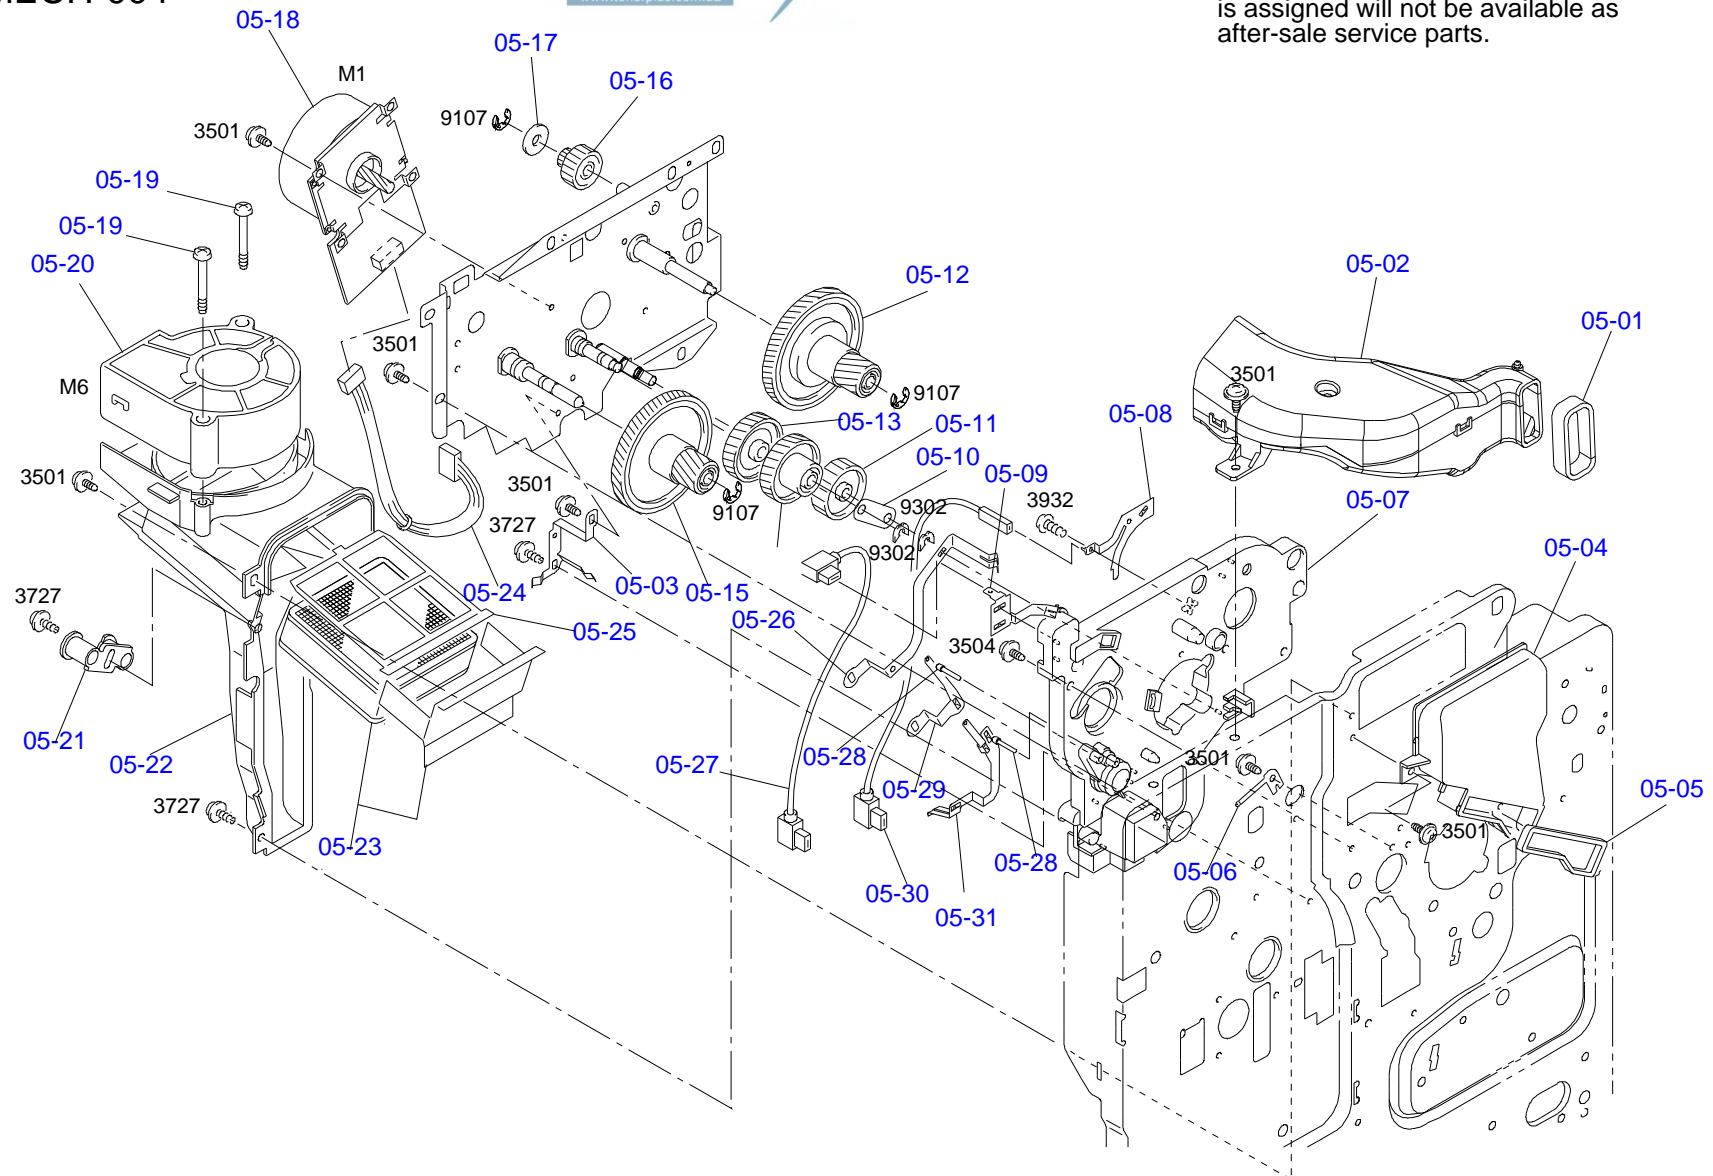

- Motor/Actuator Unit:** Located on the left, featuring a motor housing (M2), a control unit (CL1), and a power switch (PC9).
- Drive Mechanism:** Consists of a series of gears (04-16, 04-17, 04-18, 04-19, 04-20, 04-21, 04-22, 04-23, 04-24, 04-25, 04-26, 04-27, 04-28, 04-29, 04-30, 04-31, 04-32, 04-33, 04-34, 04-35, 04-36) and a long drive shaft (04-24).
- Control and Power Components:** Includes a power switch (PC9), a control unit (CL1), and a motor housing (M2).
- Mounting and Fasteners:** Numerous screws (3501), washers (9302), and other fasteners (9107, 9109, 9112) are shown throughout the assembly.
- Other Components:** Includes a cable (04-08), a bracket (04-09), a lever (04-04), and a spring (04-18).

The diagram uses a consistent labeling system to identify each part, with blue text and lines indicating the assembly sequence and relationships. Dashed lines are used to group related components into sub-assemblies.
