Contents of firmware changes	Model	Item	Contents
	1 DF-710 DF-730 DP-710	Support for KM-C4035E.	Changed the conveying speed.
	2 DF-710	The timing of paper holding solenoid has been adjusted.	In order to reduce the sound of the paper holding lever hitting the main tray, the operation timing of the paper holding solenoid has been changed.
	3 DF-710	Method to prevent JAM 88 (Main tray eject JAM).	There is a possibility that JAM88 might occur when copying 3 sheets monochrome A4 copies with 2 staples continuously.
	4 DP-710	The paper feeding timing when using the Auto select function has been changed.	When using the Auto select function, there is a possibility that small sized originals are detected as large sized originals and the copy image is printed half on the large sized paper.
