

<b>SB Number:</b>	<b>SB 2GM-003</b>	<b>Creation Date:</b> 27/01/2006
<b>Subject:</b>	<b>System Firmware upgrade, version 004.008</b>	
<b>Model:</b>	<b>FS-1118MFP</b>	

Firmware is upgraded as follows.

## Contents of changes

No.	Contents	Remarks
1	CF card data is not enabled in API	The link process in the API program is incorrect. The linking process from CF card is corrected.
2	"printer_status(7)E.pdf" which is the command to send the printer serial number is not supported.	Printer_Status(7) support is added.
3	If CF card is write-protected by RWRF X, A, 1; command or PJL is formatted and the macro is not enabled.	The format process from front panel for write-protected CF card is incorrect and it is corrected to the right operation after formatting.
4	If the fax is unable to forward E-mail, a 'received fax' form should be printed.	Send error is seen as an 'E-mail transmit' error and is included as a part of 'Auto Continue' and a received fax is printed (if Auto Continue is selected).
5	Fax destination number should be shown in the fax confirmation by E-mail.	Destination information is added to the job report E-mail.
