

# **TECHNICAL BULLETIN**

TB No.: **2AV-002**

Date: 14 / 03 / 2001

**MODEL:** KM-1530, KM-2030

**SUBJECT:** Replacing the 'PULLEY, BYPASS'

Please be informed that the 'SPACER, BYPASS PULLEY' has been added from mass-production and onwards.

## **Content of change**

The 'SPACER, BYPASS PULLEY' has been inserted between the resin and the rubber part of the 'PULLEY, BYPASS' as a countermeasure for the misfeed of envelopes from the bypass and to improve the paper feed conveyance of this semicircular pulley.

## **Note**

If replacing the 'PULLEY, BYPASS', please pull out the inserted spacer. After that reinsert the spacer in the new 'PULLEY, BYPASS' as indicated in the figure above.

When pulling the spacer out, the rubber of the pulley needs to be peeled off slightly. Please mind not to reuse an old pulley.

In the near future, the current semicircular pulley will be changed into a full round pulley as a permanent countermeasure. For this round pulley, the abovementioned info can be disregarded.

Item No.	Parts No. OLD	Parts No. NEW	Description	Q'ty old-new	Interchangeability	SP
1	---	2AV06460	SPACER, BYPASS PULLEY	- / 1	- / O	O

The 'O' mark in the 'SP' column indicates that the part is mentioned as a spare part in the Parts List.
