

KYOCERA Service Bulletin

SB Number:	SB 2H0-027	Creation Date: 12/01/2010
Subject:	The parts DK-670 has been changed to improve the drum cleaning	
Model:	KM-2540/3040/2560/3060	

Contents of changes	<p>To improve the cleaning process at the cleaning roller for the drum unit, the following changes have been made:</p> <ol style="list-style-type: none"> 1. The bend position of the holder for the toner scraper has been changed to move the toner scraper 0.3mm closer to the cleaning roller. 2. Due to the above mentioned change, the toner scraper thickness has been changed from 80 to 50 micrometers, to close the gap and to ensure proper contact pressure with the cleaning roller.
