Subject:	'LEVER LOCK CONTAINER' damaged (toner container)	
Model:	<b>KM-C2630 / C2630D</b>	

**Phenomenon**

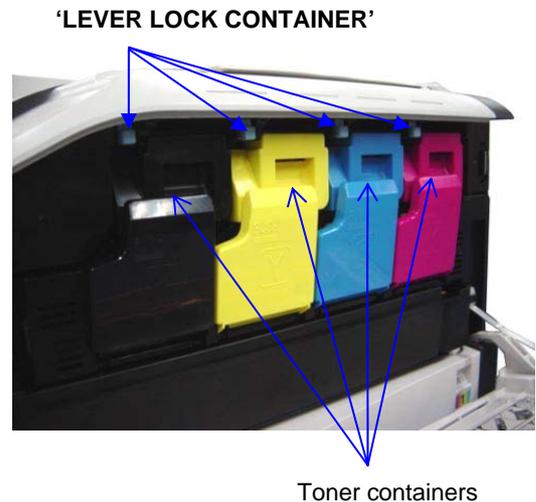

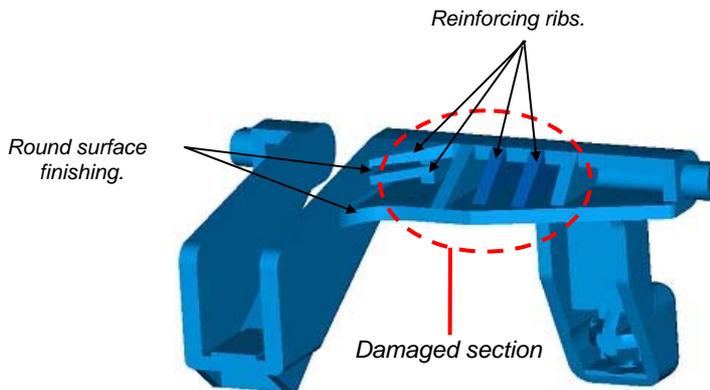

If the toner container is pulled out in the condition that the 'LEVER LOCK CONTAINER' is not released first, the 'LEVER LOCK CONTAINER' might become damaged.

**Countermeasure**

To prevent the 'LEVER LOCK CONTAINER' from being damaged, some reinforcing ribs and a round surface finishing have been added to the 'LEVER LOCK CONTAINER' for ensuring its strength. When replacing toner container, please follow the procedures below.

**Toner container replacement**

1. Open toner container cover.
2. Push the bottom bar on 'LEVER LOCK CONTAINER' until the bar makes a click sound. Only after releasing the locked condition, lift up the toner container slightly and pull out the toner container.

**Field Action**

If the phenomenon should arise, please replace old part no. 1 with new part no. 1. In addition, please instruct the user to pull out the toner container only after releasing the 'LEVER LOCK CONTAINER'.
