<b>Subject:</b>	<b>Firmware upgrade, B5 paper size JAM prevention</b>	
<b>Model:</b>	<b>FS-9130DN</b>	

The firmware has been upgraded as follows:

	Item	Remarks
1	Jam prevention when using the DF-730/FS-9130DN combination.	When printing and ejecting B5 lateral size paper in shift staple mode to DF-730 (1000 sheets finisher), a paper jam may occur because there is not enough space between the first and second sheet of paper.
